CHANGING THE BIKE GAME WHERE IT COUNTS MOST

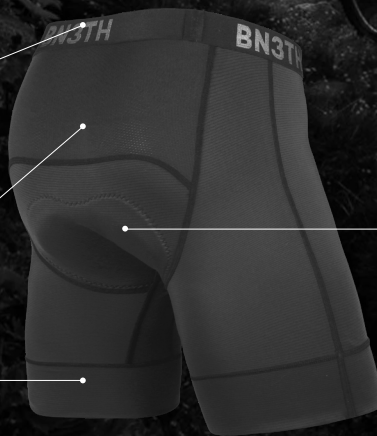

Silicone beading for extra grip

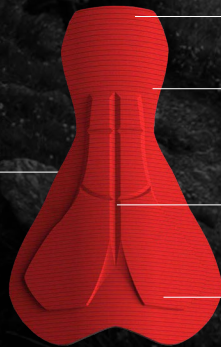

Mesh knit fabric for increased breathability

Silicone gripper on the inside leg

STS PAD INSIDE

COVER

- 3mm thick (60kg/m³ density 20kpa)

SURFACE

- Meridian Micro
- 82% Nylon
- 18% Spandex

CENTRAL CHANNEL

- Improves blood flow and reduces pressure and numbness

ANTI-PRESSURE MODULES

- 12mm thick (120kg/m³ density 30kpa)
- High-density foams are applied under the top layer to deliver maximum performance on medium distance rides

MyPackage Pouch Technology™

Padding is continued into the pouch to provide support and protection. This is a patent pending technology and first of its kind.
